

Levels of Opportunity

Community Trustee \$5,500

The Community Trustee program, a top tier investment level within the Chamber, represents the premier organizations and companies in West Orange county and neighboring communities. The Community Trustee program was founded in 1998 by a core group of business leaders within the Chamber for the purpose of providing a solid foundation for the Chamber to operate each year and to ensure the success of each participating Trustee member. Through tailored programming, the Chamber provides these members with social and political networking, increased branding opportunities and recognition at all Chamber events. This is a premier membership designed to connect community leaders and other executives with benefits and services geared to meet the challenges of today's business. The Community Trustees receive all the Member benefits and services from lower investment levels, in addition to the items below, unless specifically stated.
